But by now we know that the fans do not take efforts to book tickets and watch the movie on a big screen like true cine lovers. Instead, they resort to illegal and unethical practices like downloading films for free from online piracy sites. Hacked too faced this! As per the fresh reports, Hacked full movie in high-definition (HD) quality has been leaked on TamilRockers and other similar sites. As Hina has a large fanbase, we are not surprised that they are searching for words like Hacked movie download in HD 720p, Hacked movie download in filmywap, Hacked movie download in 480p, Hacked movie download in filmyzilla, Hacked movie download in mp4 etc. Not just TamilRockers but there are more such sites and apps now that provides the latest movie illegally. It is yet unknown how no action is being taken against them on a permanent basis. However, with increasing fans showing off a casual attitude towards piracy and indulging into the same, it is almost impossible to tackle it for the cops too. The movie lovers are searching for the film even on Telegram, an app that has links to the leaked films. The movie is being searched by people with words like Hacked Full Movie Download, Hacked Tamilrockers, Hacked Tamilrockers HD Download, Hacked Movie Download Tamilrockers, Hacked Telegram, Hacked Telegram links, Hacked Full Movie HD Telegram, Hacked Full Movie Download 480p and more such terms. Earlier, many filmmakers and actors appealed to the fans to stop piracy. However, it clearly isn't being followed by them. With Vikram Bhatt directed Hacked being leaked, let us see if the makers of it too appeal to the fans to watch it legally. (The above story first appeared on LatestLY on Feb 07, 2020 01:41 PM IST.
